

TRUSCULPT iD PR Q&A

Q: IS THERE AN IDEAL CANDIDATE FOR TRUSCULPT iD®?

A: Adult men and women who are looking to reduce abdominal circumference and eliminate stubborn body fat, are candidates for truSculpt iD.

Q: HOW LONG DOES A PATIENT NEED TO WAIT IN ORDER TO SEE RESULTS?

A: Results can be seen in 6 – 12 weeks.

Q: CAN YOU DESCRIBE THE TREATMENT PROCESS AND THE SENSATION THAT IS FELT DURING THE TREATMENT?

A: truSculpt iD procedures are typically described as feeling like a hot stone massage. During treatment, the skin temperature will rise but remain comfortable. It's effective, safe, and the results are even and consistent.

Q: HOW MANY TREATMENTS ARE TYPICALLY NEEDED? IF MORE THAN ONE, HOW MUCH TIME SHOULD THERE BE BETWEEN TREATMENTS?

A: Multiple areas can be treated in as little as one 15-minute session. Maximum results are visible after 12 weeks. Additional treatments may be scheduled 12 weeks apart to achieve the desired personalized results.

Q: IS THERE ANY POST-TREATMENT SWELLING OR BRUISING?

A: Post-procedure, the treatment area will be warm and flushed for less than one hour. Patients may experience mild sensitivity to the touch for a few days.

Q: ARE THERE ANY RESTRICTIONS TO ACTIVITIES RECOMMENDED AFTER THE TREATMENT?

A: No. Patients are able to immediately return to normal activities and exercise.

Q: HOW DOES TRUSCULPT iD DIFFER FROM OTHER BODY CONTOURING TREATMENTS ON THE MARKET?

A: Faster- It takes as little as 15 minutes to treat one body part.

B: Safer- No extended recovery time.

C: Comfortable- Feels like a hot stone massage.

D: Fat reduction- Clinical studies have shown an average of 24% fat reduction.

E: Versatile- Best of all, I can treat a wide range of patients who may not be a candidate for other procedures. I can treat many body areas, skin types, and fat densities.

Q: WHAT IS THE AVERAGE COST FOR THE TREATMENT?

A: Costs may vary depending on a patient's needs. Our typical charge is \$[XX]+ per treatment.

Q: WHAT FEEDBACK DO YOUR PATIENTS GIVE YOU ABOUT THEIR RESULTS?

A: My patients describe their results as [INSERT PATIENT COMMENTS].
